

- Formes Attributs et leur identification
- Visiteurs et comportements non définis à priori

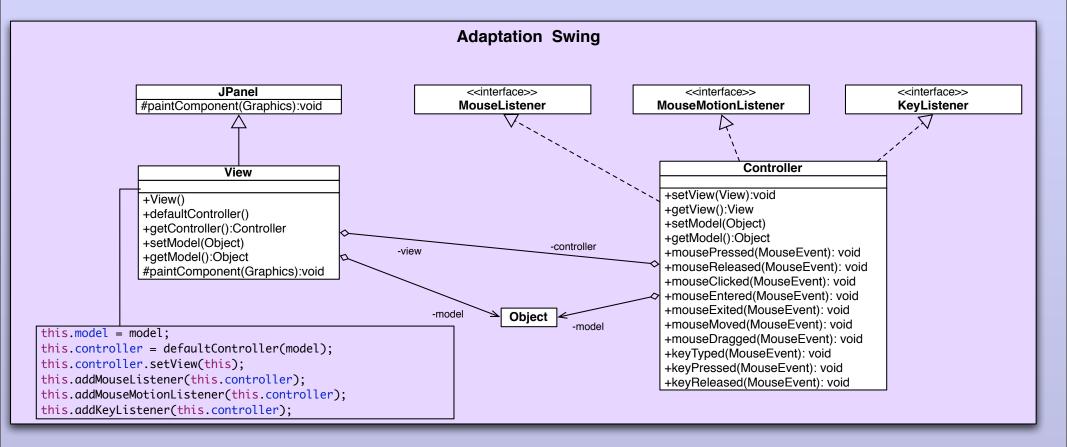

J.M. Perronne cours approche objet

IHM

MC et Swing

IHM

Comportement du contrôleur

Evenements Contrôleur

mouseClicked(MouseEvent) mousePressed(MouseEvent) mouseReleased(MouseEvent) mouseDragged(MouseEvent)

Actions Contrôleur

translateSelected(in ::):void getTarget():Shape unselectAll()

Actions Shape

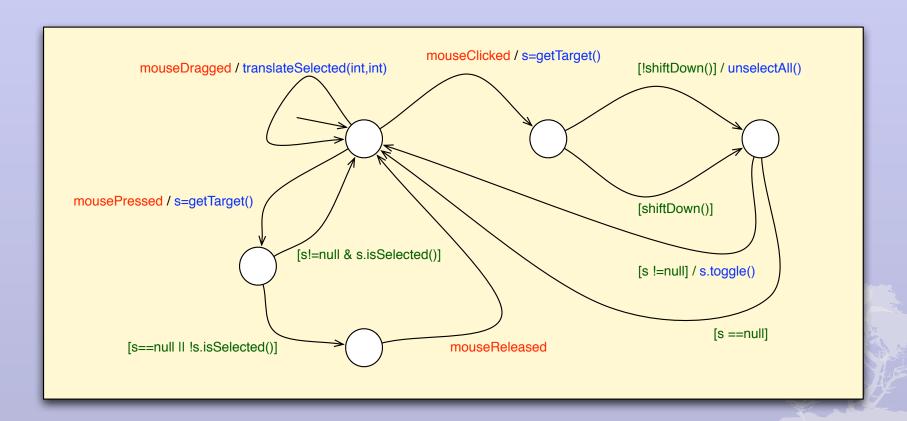

translate(int, int):void select():void unselect():void toggleSelection():void

Conditions Contrôleur

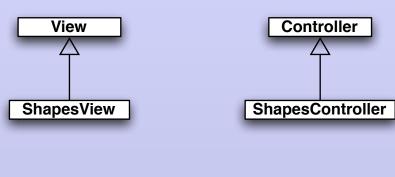

shiftDown():boolean

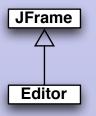

Conditions Shape

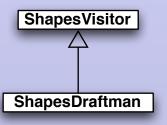

isSelected(): boolean

Spécialisation des concepts

Application 7

Anatomie du projet
